

## Laser Resurfacing

*Sun damage, aging and acne scarring*

The ultimate procedure for improving the skin's texture. This aggressive procedure is usually performed in the operating room and requires an average of one week for healing and down time. One treatment removes years of aging and sun damage.

*Pricing begins at \$3,500*

## ProFractional

*Firm and tighten*

We utilize our ProFractional laser to stimulate collagen and elastin production which in turn leaves the skin tighter and firmer. This treatment precisely creates thousands of pinpoint areas for your skin to produce new healthy tissue. Penetrating deeper than a MicroLaser Peel, this treatment leaves no open wounds, resulting in less down time.

*Pricing begins at \$500*

## BBL

*Photofacial/Sun Damage, Brown Spots, Redness*

We utilize Broad Band Light (BBL) to effectively address sun damage, Rosacea, age spots, melasma, flushing and broken capillaries. Studies at Stanford University prove that regular BBL "maintenance" treatments actually slow the skin aging process. This lunch time procedure shows immediate improvement even after your first treatment.

*Pricing begins at \$450*

## MicroLaser Peel

*Smooth and refresh*

This peel utilizes our Erbium laser to provide a precise MicroLaser Peel that is the equivalent of 4-6 microdermabrasion services. You will achieve great improvements in skin tone and texture even after just one procedure. Expect 1-2 days of redness and/or peeling before your skin becomes fully revitalized and smoother.

*Pricing begins at \$200*

## SkinTyte

*Tone and Tighten Loose Skin*

Advanced light technology allows us to tone and tighten loose skin. This non-invasive treatment heats the deep layers of the skin stimulating Collagen and Elastin for long term improvement. Common areas of treatment include the neck, abdomen, lower buttocks, and face. This year-round procedure has no down time and amazing results.

*Pricing begins at \$200*

## Laser Hair Removal

*Remove unwanted hair*

The BBL light energy is used to damage the hair origin at the base of the follicle. After a series of treatments most hair is permanently removed. This treatment must be done in a series and unfortunately does not work on white, blonde or grey hair.

*Pricing Begins at \$80*

## Ultimate Procedures

### Fountain of Youth

Truly, the ultimate rejuvenation is a facelift with neck (and brow lift or temporal lift or Blepharoplasty as needed) and full face Contour Erbium resurfacing. A small amount of fat transfer along the bottom edge of the jaw makes it truly the ultimate procedure. This procedure literally removes 10 years off your face.

*Pricing begins at \$12,000*

### Age Defying Hands

For younger looking hands, two problems need to be addressed: spots and discoloration and prominence of veins, tendons, and bone on the back of the hand. This unique one-step rejuvenation combines BBL with a fat transfer.

*Pricing begins at \$3,000*

### Weekend Lift

In need of a quick touch up? We've got you covered. Pro-Fractional, 6-8cc of JUVÉDERM® or other filler and up to 100 units of BOTOX® combined with a complimentary makeover using Susan Posnick cosmetics leaves you ready for your weekend plans.

*Pricing begins at \$1,500*

### Partington Peel

This combination peel will erase years off your face in less than two hours. We combine SkinTyte, BBL, MicroLaser Peel and Pro-Fractional into one unbelievable procedure.

*Pricing begins at \$1,350*

## Medical Grade Peels

*Chemical Peels are a fantastic way to prepare for your laser series. All peels are administered by our Licensed Medical Aesthetician under the supervision of a Board Certified Plastic Surgeon.*

### Glytone Professional TCA 40 Peel
